

Telemotive

SLTX

Pre-engineered Radio Systems

Price List#: SLTX-PRE-1

All below models are available within 5 business days

Description	Catalog Number	List Price
Telemotive SLTX System, consisting of (1) SLTX transmitter with 3 levers, (1) <i>inteleSmart</i> 12 output receiver, (2) rechargeable NiMH Batteries and (1) battery charger designed for 3-motion, 2-speed with 3 aux. functions or A, A+B, B and 1 aux. function	SLTXSYS-3L-3M-2S	\$5,114
Spare SLTX transmitter* For a 6 foot pigtail cord and transfer switch add**	SLTX-3L-3M-2S	\$3,995 \$240
Telemotive SLTX System, consisting of (1) SLTX transmitter with 3 levers, (1) <i>inteleSmart</i> 24 output receiver, (2) rechargeable NiMH Batteries and (1) battery charger designed for 3-motion, 3-speed with 6 aux. functions	SLTXSYS-3L-3M-3S	\$5,614
Spare SLTX transmitter* For a 6 foot pigtail cord and transfer switch add**	SLTX-3L-3M-3S	\$3,995 \$442
Telemotive SLTX System, consisting of (1) SLTX transmitter with 3 levers, (1) <i>inteleSmart</i> 24 output receiver, (2) rechargeable NiMH Batteries and (1) battery charger designed for 5-motion, 3-speed with 4 aux. functions or 3-motion, 3-speed with A, A+B, B and 4 aux. functions	SLTXSYS-3L-5M-3S	\$5,614
Spare SLTX transmitter* For a 6 foot pigtail cord and transfer switch add**	SLTX-3L-5M-3S	\$3,995 \$442
Telemotive SLTX System, consisting of (1) SLTX transmitter with 3 levers, (1) <i>inteleSmart</i> 24 output receiver, (2) rechargeable NiMH Batteries and (1) battery charger designed for 3-motion, 5-speed with A, A+B, B and 4 aux. functions	SLTXSYS-3L-3M-5S	\$5,614
Spare SLTX transmitter* For a 6 foot pigtail cord and transfer switch add**	SLTX-3L-3M-5S	\$3,995 \$442

Special Notes:

When a Part 15 spare transmitter for a legacy system is purchased, it includes a filter and half wave antenna that will need to be added to the receiver in the field.

* An additional 10% discount can be applied to the spare transmitter when purchased at the same time and as part of a new system.
(Example: SLTX-3L-3M-2S = \$3,995 X .9 X Multiplier = Net Price)

**The six foot pigtail and transfer switch are pre-wired to the receiver and the configuration is based on one common control and power source transformer.

Optional Parts

Description	Catalog Number	List Price
Alkaline Battery Pack—Disposable	BT120-0	\$29
Rechargeable NiMH Battery six cell—Most SLTX transmitters use this type of battery.	BT122-0	\$79
Battery Charger—Designed to recharge the BT122-0 battery. It comes with a 120 VAC power adapter.	E10759-0	\$395
Piggyback Battery Charger—This charger plugs into the E10759-0 battery charger without using additional AC outlets. Up to three charging units can be charged from one AC adapter.	E10759-1	\$295
Receiver Remote Antenna Kit—Consisting of 40' of co-axial cable and antenna base, which optimizes the radio signal for your crane.	E2028-2	\$117
Receiver Panel Antenna Kit (Secondary Enclosure)—Designed for radios that are mounted inside a panel. This kit consists of a BNC-BNC bulkhead fitting and 4' of co-axial cable.	E2028-4	\$75
